- Programming Languages: Python, Java, C, C++ (Fundamentals), JavaScript (ES6+), HTML5, CSS3
- Development Environment: Git version control, VS Code, npm package management
- Database Technologies: MySQL, MongoDB, Firebase
- Tools & Platform – PowerBI, Excel for data analysis, Microsoft Office Suite
- Programming Concepts: Advanced Data Structures, Algorithms, Object-Oriented Design

## Projects

---

- **E-Commerce Website** | FastAPI, MongoDB, JWT Authentication | GitHub | Live Demo
- **Saket's Programming Language** | Python, PLY, LLVM, JavaScript | GitHub | Live Demo
- **SportsConnect - Professional Network for Athletes** | Django, React, WebSocket | GitHub | Live Demo
- **Traverly - Online Travel Planning & Booking Platform** | Flask, Django, Python, JavaScript | GitHub | Live Demo
- **Data Analytics API** | Python, FastAPI, MySQL, Chart.js | GitHub | Live Demo
- **Library Management System** | Django, MySQL, Bootstrap, REST APIs | GitHub | Live Demo
- **Attendance Management System** | Python Flask, OpenCV, SQLite, Face Recognition | GitHub | Live Demo

## Certifications

---

- Crash Course in Python - Coursera
- DSA Course - GeeksForGeeks
- Google Cloud Certification
- Python Programming - GeeksForGeeks
- MERN Development - SeedIT Solutions, Bhilai
- CoodLoom Hackathon - SSTC, Bhilai
